

MAURICIO BAYUELO

Front-End Developer, React, Next.js & TypeScript, Headless WordPress / GraphQL, UX/UI Designer

Front-End Developer and UX/UI Designer with 10+ years of experience building websites, applications, and content platforms. Specialized in React, Next.js, and TypeScript with GraphQL and headless WordPress architectures, with unit and integration coverage in Vitest and React Testing Library. Ten years of visual design plus a Google UX certificate — able to take a project from Figma to production without a handoff. Trilingual (EN / FR / ES).

PROFESSIONAL EXPERIENCE

More experience available on LinkedIn. References available upon request.

- Magneto**
Montreal, 2025 – Present
Front-End Developer (Contract)

- Delivered production React 19 / TypeScript applications for client businesses, including a trilingual EN/FR/ES site for a therapy practice (dangelwellness.ca) on headless WordPress with GraphQL/Apollo Client — designed, built and shipped in 3 weeks
 - Built reusable component libraries and design systems across client projects; unit and integration coverage with Vitest + React Testing Library
 - Established codebase conventions and agent context files to keep AI-assisted development consistent and reviewable across client projects
 - Developed marketing platform in Next.js App Router with GraphQL and third-party API integrations
- Shamanicca (Independent Product)**
Montreal, 2023–Present
Front-End Developer
UX/UI Designer

- Built and shipped three React applications: a headless WordPress blog, a YouTube Data / WordPress REST content hub styled with Tailwind, and a D2C storefront in Next.js / TypeScript with a WPGraphQL product catalog, backed by a WooCommerce store with Printful fulfilment
 - Applied atomic design to a shared component library, keeping UI consistent across all three applications
 - Designed end-to-end product flows in Figma and implemented them in production front-end code
- 4th Whale Marketing**
Montreal, 2017–2022
UX/UI Designer
Front-End Developer

- Boosted site engagement and SEO with UX revamps across 3+ product platforms
 - Designed and developed a component-based design system for one of the revamped platforms
 - Delivered modular components and responsive, campaign-driven designs at scale
 - Collaborated cross-functionally with marketing and product teams on digital campaigns
- Design Shopp**
Montreal, 2015–2017
Full-Stack Developer

- Built 20+ WordPress sites with tailored themes, plugins, and admin flows
 - Maintained and customized complex WordPress systems with advanced theme/plugin architecture
 - Enhanced performance, UI responsiveness, and cross-browser compatibility
- MoonMedia**
Montreal, 2014 – 2015
Full-Stack Developer
Web Designer

- Designed and developed 15+ high-conversion landing pages and e-marketing assets
 - Implemented conversion-focused flows: ad landing pages, lead capture, and email automation
