Coursera

LANGUAGES

English, French, Spanish

PROFESSIONAL EXPERIENCE

Magneto · Montréal · 2025 – Present
Front-End Developer (Contract)

- Delivered production React 19 / TypeScript applications for client businesses, including a trilingual EN/FR/ES site for a therapy practice (dangelwellness.ca) on headless WordPress with GraphQL/Apollo Client — designed, built and shipped in 3 weeks
- Implemented GitHub Actions CI with TypeScript validation, Vitest + React Testing Library, production builds and Lighthouse quality gates
- Developed a Next.js App Router platform with GraphQL and third-party API integrations

Shamanicca (Independent Product) · Montréal · 2023 – Present
Front-End Developer, UX/UI Designer

- Built, shipped and evolved three React applications, including a Next.js / TypeScript D2C storefront integrated with WordPress / WooCommerce through WPGraphQL
- Modernized the storefront from Sass to Tailwind CSS v4 through a staged migration validated by a custom visual-regression harness with pixel-level and computed-style checks
- Reverse-engineered a design system from the live storefront (17 components, 58 variants) and shipped 13 accessibility and consistency fixes through 4 reviewed PRs, including WCAG AA contrast and visible focus states
- Designed agentic coding workflows with Claude Code, using AGENTS.md / CLAUDE.md context, hooks and separate reviewer and implementer agents, under architecture constraints, human approval and automated verification gates

4th Whale Marketing · Montréal · 2017 – 2022
UX/UI Designer, Front-End Developer

- Designed conversion-focused UX/UI for lead generation across 3+ product platforms
- Designed and developed a component-based design system for one of the revamped platforms
- Delivered modular, responsive components and campaign-driven designs at scale
- Collaborated cross-functionally with marketing and product teams

Design Shopp · Montréal · 2015 – 2017
Web Developer

- Built 20+ WordPress sites with tailored themes, plugins, and admin flows
- Maintained and customized complex WordPress systems with advanced theme/plugin architecture
- Enhanced performance, UI responsiveness, and cross-browser compatibility

Moon Media · Montréal · 2014 – 2015
Web Designer, Web Developer

- Designed and developed 15+ high-conversion landing pages and e-marketing assets
- Implemented conversion-focused flows: ad landing pages, lead capture, and email automation
